Mr. Hiring Manager
Dulcian Consulting
Addis Abeba, Ethiopia

Re. Software Engineer

Dear Mr.

I am applying for the position of Software Engineer at Dulcian Consulting which was advertised in the Ethio Job's on the 1th july, 2018. I hold a Bsc in Computer Science from MIT-MU with a major in Computer Science and Engineerring(CSE). I am a programmer and with years of working experience on different projects and bussiness.

My coursework as a computer science and Engineering B.S. candidate at MIT-Mekelle University has exposed me to an extensive set of computer science,engineering concepts and programming experiences.

In addition to My coursework as a computer science and enigneering, most of my job description with my previous activities includes: programming with Python and Java code documentation and structuring, database development using Oracle and Mysql,Cybersecurity,big data science,Systems and Network Analysis and Design. I am well versed (profecient) in Pythonic language and have used it to develop many best systems and security tools like ACEGL which is Android based crime and Emegency Geographic location for police and health centers. Another software I developed is malaria detectetion and classification system using AI convolutional neural network(CNNs) algorithm. And I have been the core-founder of Miteh cybersecurity,data analysis and apps development startup company at our campus. I have extensive experience handling varying security threats, regulating data access, and leading various security task forces at my previous cybersecurity campus team.

Beside my programming laurels is my passion and zeal to update with current technology news. I am passionate about techy news and available when it happens. I also possess a great interpersonal and communication skills with ability to function perfectly in a team. Working under pressure is part of my programming life and welcome the challenge of littler or no supervision.

I welcome the prospects available in your reputable software company and excited with the idea of meeting your outfit to further discuss my qualification and job experience.I've attached my resume for your consideration.

Sincerely,

Tsegay G_mariam
